# Introduction

**Mammon - money or material wealth or any "entity" that promises wealth, associated with the greedy pursuit of gain - from the post classical Latin word: "mamonna", meaning wealth.**

**"Ye cannot serve both God and Mammon" - Matthew 6 v 19 - 21 v 24, King James Bible.**

**Mammon is not an Intelligence or an external self aware Entity in the traditional sense, it is simply an idea or construct of need and desire. Many of us know the name Mammon and associate that with money, wealth, gain etc. But what very few of us grasps is the mechanics of money and how we can manipulate it's ether or energy on a Occult level.**

**When we started off in the Occult field, we were very poor - we are not talking about first world poverty, we are referring to Africa-poverty. Third world poverty. You don't know poverty until you experience this. Now we are living in comfort running a successful Occult business, due to hard work and understanding the spiritual mechanics of Mammon. We have decided to share the basic formulae in obtaining abundance with you the reader, simply because we believe that anyone at any time can become a financial success in their endeavors.**

**We will end this with the words to a famous song:**

**"I went to god just to see, and I was looking at me, saw heaven and hell were lies, when I'm god everyone dies..." - The Reflecting God by Marilyn Manson**

**Namaste.**

# Money, Money, Money

There are many Practitioners of the Occult that will attribute certain magickal Elements to money, but unfortunately most of these attributions are incorrect due to a misunderstanding of the Elements themselves.

When we take a closer look and the Lessor Invoking Ritual of the Pentagram (as an example) we can recognize a couple of well known figures and their attributes, character and Elements:

**Raphael - ("it is god who heals")**

**Associations - Apothecaries, sickness and healers, love, lovers, marriages etc.**  
**East - Air**

**Michael - ("who is like god")**

**Associations - Protection, protectors etc.**  
**South - Fire**

**Gabriel - ("god is my strength")**

**Associations - Messengers, delivering messages etc.**  
**West - Water**

**Uriel - ("god is my light")**

**Associations - Poetry etc.**  
**North - Earth**

The Invoking Ritual of the Pentagram...Invoking. The very word "Invoke" should be self explanatory - to call within or to draw within. By performing this rite of Invocation, the Practitioner aligns him/herself with the construct/ archetype thus becoming that which they call upon. However this rite is a bit tricky. This whole system of Invocation is from a Western Tradition of Magick where Judaism and Christianity has been adopted in the folds of the Occult, and sadly this is accepted in MANY traditions of Magick. The question arises:

**"Do you believe in these "Angels?"**

**"Do you Practice the Western Tradition?"**

If you answer "no" to any of these two questions, don't bother with these rites and ceremonies, it would be a waste of your time.

**Why would it be a waste of your time? The answer is simple: You cannot associate with it. With association comes belief or recognition, make it all important to remember this. Even so called miracles are powered by belief/association, without it, it's mere wishful thinking.**

**As indicated above, each of these angelic beings has an Element which they are associated with: Earth, Air, Fire and Water. But what does these elements actually mean, aside from explanations found in Medieval Alchemy manuscripts? See the description below and look very carefully at the planetary associations, for therein lies the key...**

**Money is a creation of humanity, thus man had the Prometheus or forethought to better it's survival and comfort and created it. Thus, money was created first WITHIN then came to be WITHOUT. If money first came from the chaos within man, does it mean that the 4 Occult Elements were founded thus? Yes! Unfortunately there is no simple explanation to this. In Science we see the periodical table with much more than four or five elements. However in Science it is clear that the periodical elements are also distinctly separate from man. So what are these Occult elements then?**

**Above you can clearly see that each element has a ruling Planet. These "Planets" are simply the representation of an archetype or human personality. The Elements' temperaments simply indicate the vices and virtues of each person, as seen above. Please note that each individual has a "Ruling Planet" and each star sign is directly linked to your Ruling planet. No, this is not a lesson in Astrology, this is the very basic education on the elemental influence and interference upon the subject of money. To gain a better understanding, we need to present it in this fashion.**

**Let's continue...**

**Each Planet has one associate Element. Wrong! All four Elements are directly linked to every one of the Seven Planets in the Occult tradition.**

**Moon - Earth - Air - Fire - Water  
Jupiter - Earth - Air - Fire - Water  
Venus - Earth - Air - Fire - Water etc etc**

**As mentioned earlier: The four Occult Elements were founded by man within man, via the subconscious (Kaos) then manifested without via will /consciousness etc. If you as an individual is represented as an Archetype Planet then this means that YOU direct and govern these Elemental Temperaments!**

**Mammon/Money consists of or is linked to the 4 Occult Elements - because man governs these temperaments. As mentioned, each element has it's emotional counterpart, however at times this counterpart may be of a spiritual nature as well.**

**By identifying the vice within the element and rectifying this vice, we Evoke the force of Mammon and its power is directed through will.**

**There are numerous ways to rectify this imbalance or flaw in the elemental temperament. Methods such as the Single Serpent Kundalini, Invoking the god-form, Elemental absorption etc etc. It simply depends on the will of the individual in order to obtain the desired result.**
